AES Redesign Meeting

JW Marriott Hotel
On Westheimer By The Galleria
5150 Westheimer
Houston, TX
Wednesday, December 3, 2003
9:00am - 4:00pm

This is a must meeting for:

AES Software Vendors
AES Service Centers
AESDirect EDI-Upload Filers
AES Self-Programming Filers

The AES Redesign is an enhancement to AES for submitting Shipper's Export Declaration data that meets business requirements, accurately validates data, incorporates system modifications and accommodates future expansion

The expected implementation date of the Redesign: April 2004.

The benefits of the redesign:
- Eliminates duplicate responses
- Eliminates lost transmissions
- Clearer filing guidelines
- Robust messaging
- Improved Customer support

Representatives from the U.S. Census, AES Branch will provide the new AES Customs Proprietary and X12 specifications and review all of the changes being made to those record formats. Some of the larger changes include:
- A "Replace" shipment filing action
- "Marks and Numbers" will be eliminated
- The response messages will modified

This meeting is FREE
